Subject: 2016 Community Development Block Grant, Neighborhood Revitalization Program.

Dear Resident:

The Village has received funding through the subject grant program for the resurfacing of S. Mill St. from Market St. to W. Elmwood Ave. There will be a period of time during normal working hours when you will not be able to access, or use your driveway.
If you have a special needs requirement for access please contact us so we can make appropriate arrangements?
Work is scheduled to begin the week of 08 /01/2016.

Thank you for your cooperation during this project.

You can also visit the Village Web Site (Engineering Department) for up to dated schedules, and project progress reports.

Don Morrison C.E.T.
